

Fancy a Dance?

[Intro]

Yeah

Cristofaro

Look

She said it so casually

I swear the room disappeared for a second.

[Hook]

Fancy a dance

You said it so easy

Candlelight on your face

That's all I can see

Room turns neon

Your hand finding mine

I ain't there yet

Still it plays in my mind

Fancy a dance

You don't even know

One little question

I could feel my eyes glow

Long way still

I smiled at my phone

Saw us leave those lights

Then head back home

[Verse 1]

You told me the plan

Like it wasn't that deep

Dinner, then drinks

Then you're dancing with me

I kept my voice calm

Trying not to miss a beat

Felt something light up

From my chest to my feet

Six little courses

Candle burning low

Your laugh over dinner

That's the picture I hold

Right there across from me
With the light in your eyes
I'd miss every detail
If you looked up and smiled

[Pre-Chorus]

You said it softly
Like one more plan
Five hours between us
Went quiet like that
Then you asked me
"Would you fancy a dance?"

[Chorus]

Fancy a dance
You said it so easy
Candlelight on your face
That's all I can see
Room turns neon
Your hand finding mine
I ain't there yet
Still it plays in my mind

Fancy a dance
You don't even know
One little question
I could feel my eyes glow
Long way still
I smiled at my phone
Saw us leave those lights
Then head back home

[Verse 2]

I see the room
Turn gold into blue
Music all around
But I only hear you
You reach for my hand
Like it's always been yours
Lights blur behind you
As we move to the floor

You laugh in my ear

And it finally lands
Same voice from the phone
Now right where I stand
Then we leave those lights
With your hand still in mine
No goodnight by phone
We're finally going home

[Bridge]

You said it so simple
Like one little plan
I felt the whole night
Before it began
It wasn't the dinner
Or the glow of the lights
It was hearing you wanted
Me there by your side

[Chorus]

Fancy a dance
You said it so easy
Candlelight on your face
That's all I can see
Room turns neon
Your hand finding mine
I ain't there yet
Still it plays in my mind

Fancy a dance
You don't even know
One little question
I could feel my eyes glow
Long way still
I smiled at my phone
Saw us leave those lights
Then head back home

[Outro]

Would you fancy a dance with me
Yeah
I would
Thirty seven days
Cristofaro
