

Say Less (feat. Ashlee) (lyrics)

[Intro]

[Male]

Yeah...

Christofaro

You and me

My Lovely

Look.

[Chorus]

[Female]

Say less

I know that look

You got real quiet

Soon as you saw this

[Male]

Say less

I caught that smile

You can play shy

But only for a while

[Female]

Long way

Still so close

[Male]

Keep talking like that

Gonna feel it in your toes

[Male and Female]

Say less

Say less

Ain't gotta spell it out

You know that I know

[Verse 1]

[Male]

You change that tone
Soon as we're alone
Say something slick
Then act like you won't
I catch that smile
Let you play for a while
You can act innocent
But that ain't really your style

Your head on my chest
Early in the morning
You say you're tired
Well we stayed up till the morning
I say one thing
Feel you laugh against me
Try to play it cool
While you kissin on my goatee

[Pre-Chorus]

[Female]

You think you're smooth

[Male]

I know I am

[Female]

Don't get bold

[Male]

Too late for that

[Female]

You talk too much

[Male]

You like when I do

[Male and Female]
Then nobody talks
For a second or two

[Chorus]
[Female]
Say less
I know that look
You got real quiet
Soon as you saw this

[Male]
Say less
I caught that smile
You can play shy
But only for a while

[Female]
Long way
Still so close

[Male]
Keep talking like that
Gonna feel it in your toes

[Male and Female]
Say less
Say less
Ain't gotta spell it out
You know that I know

[Verse 2]
[Female]
You get that grin
Like you figured me out
Getting real confident
Look at you now
You watch my face

Every time that you flirt
Just to see if it lands
Yeah I know how you work

You think you're slick
I'll give you that
Know exactly when
To make me laugh
But don't get confused
I can flip this on you
You've been reading my face
Like I ain't reading you

[Verse 3]

[Male]

Yeah you caught me
I'll give you that
Saw that little smile
Now I'm smiling right back
Tried playing cool
That lasted a minute
You know when you got me
And you fucking love it

Bedroom quiet
You're laying this close
You give me that look
Yeah, I already know
You say "one more minute"
I'm like, "Where would I go?"
Neither one moving
Guess we're taking it slow

[Pre-Chorus]

[Female]

You think you're smooth

[Male]

I know I am

[Female]

Don't get bold

[Male]

Too late for that

[Female]

You talk too much

[Male]

You like when I do

[Male and Female]

Then nobody talks

For a second or two

[Chorus]

[Female]

Say less

I know that look

You got real quiet

Soon as you saw this

[Male]

Say less

I caught that smile

You can play shy

But only for a while

[Female]

Long way

Still so close

[Male]

Keep talking like that

Gonna feel it in your toes

[Male and Female]

Say less

Say less

Ain't gotta spell it out

You know that I know

[Bridge]

[Female]

You get real close

Then wait on me

That little grin

Like you know what I mean

[Male]

I know that look

I know that tone

Hits a little different

Now we're finally alone

[Female]

Maybe we don't

Need another line

[Male]

Then come a little closer

And I'll stop talking this time

[Male and Female]

Say less

Say less

[Final Chorus]

[Female]

Say less

I know that look

You got real quiet

Soon as you saw this

[Male]
Say less
I caught that smile
You can play shy
But only for a while

[Female]
Long way
Still so close

[Male]
Keep talking like that
I like it better this close

[Male and Female]
Say less
Say less
Ain't gotta spell it out
You know that I know

[Outro]
[Female]
Try to play it cool
But your smile says no

[Male]
You're doing the same
Baby, I already know

[Female]
Come a little closer

[Male]
Thought you'd never ask

[Male and Female]
We can say less

Let the moment last

[End]
