# Still Warm (lyrics)

## [Intro]

Yeah...
Cristofaro.
Clean Margin.
Look.

## [Chorus]

You're still on me
Still on me
Long way home
But you came with me
Miss your touch
Got my heart at ease
Goddamn
Look what you did to me

Still warm
Still warm
Your hand ain't here
But the feeling hangs on
Back in my room
With the lights down low
Even in the silence
I don't feel alone

Yeah it hurts
But it don't feel wrong
I came home
And the peace came along
Still warm
Still warm
Got your warmth everywhere I go

## [Verse 1]

Keys on the counter
My coat on the chair

Still turn my head
Like you’re sitting right there

Long flight home
Had to sit with the ache
Reached for your side
When I started to wake

Your hand found mine
Like it knew where to go
No big movie scene
Just the whole world slow

Pulled you in close
You leaned into me
Nothing to figure out
Nowhere else to be

Fingers in my curls
Your legs over mine
Talking future on the sofa
Never checking the time

You looked up and smiled
I forgot what I said
Now I’m home with that look
Still loud in my head

## [Pre-Chorus]

Before you
It was want
It was distance
It was hope
Now it’s safe
Now it’s warm
Now it’s home
In my bones

I don’t feel less

Now that I'm away
I feel you deeper
Every single day

## [Chorus]

You're still on me
Still on me
Long way home
But you came with me
Miss your touch
Got my heart at ease
Goddamn
Look what you did to me

Still warm
Still warm
Your hand ain't here
But the feeling hangs on
Back in my room
With the lights down low
Even in the silence
I don't feel alone

Yeah it hurts
But it don't feel wrong
I came home
And the peace came along
Still warm
Still warm
Got your warmth everywhere I go

## [Verse 2]

I'm back to scrubs
Back to clocks
Back to long shifts
Back to rounds

Back to people asking
How the trip was

I say beautiful
Like that says enough

How do I explain
It was more than a place
It was your hand in mine
And the look on your face

How do I explain
How the room lost sound
When your eyes met mine
And the rush came down

How do I explain
What your stillness gave
My shoulder felt like shelter
Somewhere your head could stay

The miles still stand
But they don’t feel the same
Since your laugh has a room
And your touch has a name

I do not just miss you
I know you now
And that changed the shape
Of the distance somehow

## [Pre-Chorus]

Before you
It was want
It was distance
It was hope
Now it’s safe
Now it’s warm
Now it’s home
In my bones

I don’t feel less

Now that I’m away
I feel you deeper
Every single day

## [Bridge]

Before it was what if
Now it’s when I get back
Before I imagined
Now I know what we have

It doesn’t feel lighter
It just finally feels true
The place I kept reaching for
Had a heartbeat in you

The distance hurts
But it doesn’t feel fake
It feels like proof
That what we risked had weight

## [Break]

I don’t need a sign
I don’t need fate
I know your voice
I know your face

I know your laugh
When you try not to cry
I know the look
When we said goodbye

And if missing you
Is what these miles cost me
I’d pay it again
For the peace that you brought me

[Final Chorus]
You’re still on me
Still on me

Long way home
But you came with me
Miss your touch
Got my heart at ease
Goddamn
Look what you did to me

Still warm
Still warm
Your hand ain't here
But the feeling hangs on
Back in my room
With the lights down low
Even in the silence
I don't feel alone

Yeah it hurts
But it don't feel wrong
I came home
And the peace came along
Still warm
Still warm
Got your warmth everywhere I go

## [Outro]

Coming home stung more than I thought.
Yeah.

But I'd do it all again.
Every flight.
Every goodbye.
Every mile.

Cause now I know.

The warmth stayed.

Cristofaro.

[End]
